Double degree programs as a booster of university internationalization: successful experience and search for new opportunities

Prof. Dr. Larysa Kalachevska
Sumy National Agrarian University, Ukraine

Our priorities in the field of internationalization:

- improvement of foreign language skills and acquisition of intercultural competences by students and staff
- development of virtual and physical academic mobility programs
- development of double degree programs and further joint international accreditation
- implementation of joint scientific projects
- increasing the offer of English-language educational programs for foreign students

#INTERNATIONALIZATION

Goal 16. Promotion of the brand of Ukrainian agricultural education through the formation of the international reputation of the University as one of the leading educational and research centers in Europe

- Progress indicators:
1. Participation of the University in the most authoritative educational associations;
 2. Number of programs that have passed international accreditation;
 3. Entry into international rating bases, in particular, QS World University Rankings Times Higher Education;
 4. Number of leading researchers of the University teaching and conducting joint research in foreign partner universities;
 5. Number of foreign branches/representative offices;
 6. The number of scientific works of the University scientists, indexed in the database of Scopus and Web of Science, including those in cooperation with foreign partners;
 7. Extension of the range of educational services to foreign citizens;
 8. Number of academic programs taught in foreign languages;
 9. Number of countries (including groups) whose citizens study at the University;
 10. Number of countries that recognize higher education diplomas of Sumy National Agrarian University.

#INTERNATIONALIZATION

Goal 17. Expanding access to quality international education and scientific and practical activities of domestic applicants for higher education.

- Progress indicators:
1. Percentage of students with language competence (English, German, French, Polish) at the level not lower than B1;
 2. Extension of number of foreign research institutions and business structures cooperation with which is carried out to provide bases of internship for University students;
 3. Number of realized academic mobilities of higher education applicants and academic staff;
 4. Number of leading world scientists teaching and conducting joint research at the University;
 5. Number of double degree programs with international partners and the dynamics of their contingent;
 6. Number of students who have successfully completed an internship abroad.

Goal 18. Extension of the range of international partners and effective implementation of international agreements on cooperation with leading international educational and scientific institutions and business structures.

- Progress indicators:
1. Number of concluded agreements under which cooperation measures are actually implemented;
 2. Number of successful applications for international grant programs and competitions;
 3. The share of financing of scientific and educational activities at the expense of international funds.

Double degree programs as a booster of university internationalization

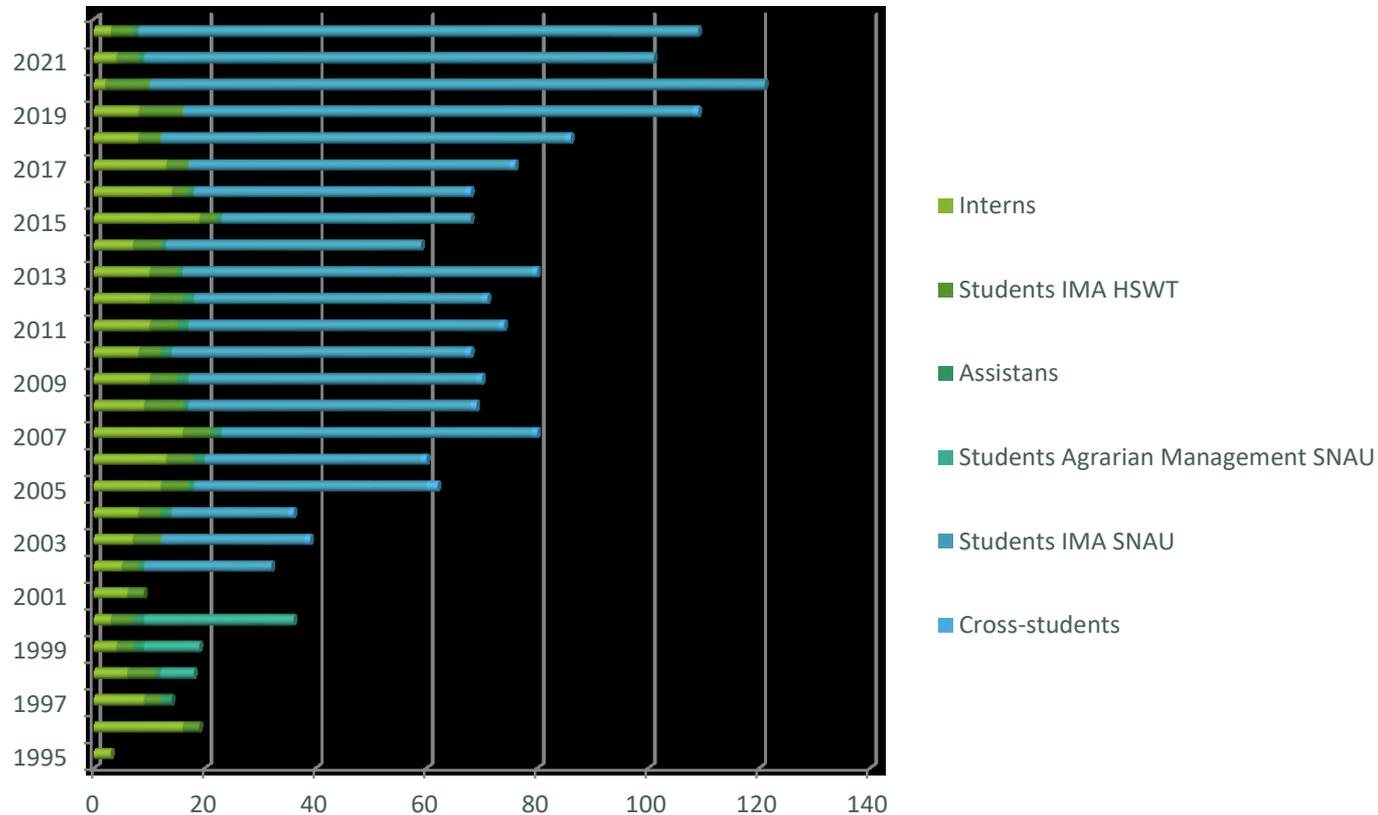

Double degree program SNAU-HSWT

Dynamics of joint SNAU-HSWT master course participants

International accreditation of the study program

Accredited by
ACQUIN

Joint international accreditation of the IMA master's course:

In September 2022, SNAU together with HSWT received international accreditation of the master's course "Administrative Management" for the next 7 years.

The purpose of international accreditation is to confirm the full compliance of the content and quality of the educational process at SNAU with European educational standards.

On January 20, 2023, the Cabinet of Ministers of Ukraine adopted a decision to expand the list of foreign accreditation agencies and higher education quality assurance agencies whose certificates on accreditation of educational programs are officially recognized in Ukraine.

ACQUIN agency (Germany) was also included in this list as a result of SNAU's application.

Portfolio of joint international projects

- ✓ Erasmus + Project **From Theoretical-Oriented to Practical education in Agrarian Studies** (585603-EPP-1-2017-1-DE-EPPKA2-CBHE-JP) with National University of Life and Environmental Sciences of Ukraine, Sumy National Agrarian University, 2017-2021;
- ✓ **Ukrainian Farm management Data**, Federal Ministry of Food and Agriculture of Germany (BMEL), 2018-2021;
- ✓ DAAD-Projekt 57565498 **Deutschsprachige Studiengänge** (DSG) in Ostmittel-, Südost- und Osteuropa sowie dem Kaukasus und Zentralasien 2021/2022
- ✓ DAAD-Projekt **Deutschsprachige Studiengänge** (DSG) in Ostmittel-, Südost- und Osteuropa sowie dem Kaukasus und Zentralasien – 2023/24
- ✓ DAAD Project „**Digital Modernization of Lecturing in Ukrainian Agricultural Universities**“ (Phase 1 and 2, 2021/2023)
- ✓ DAAD Projektes 57650509 **Ukraine digital: Studienerfolg in Krisenzeiten sichern** (2022)
 - Sumy National Agrarian University;
 - Mykolayiev National Agrarian University;
 - National University of Live and Environmental Sciences of Ukraine;
 - Poltava State Agrarian University;
 - Vinnytsia National Agrarian University;
 - National University of Water and Environmental Engineering

Expanding the network of business partners with the support of the Triesdorf educational center

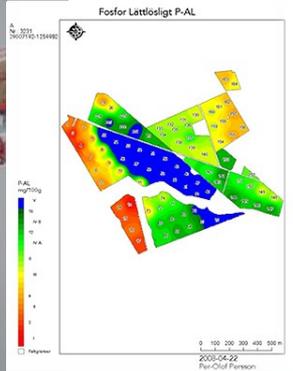

Supported by:

HORSCH
IMK
CASE IH
NCH Capital
CLAAS
KERNEL
SAT

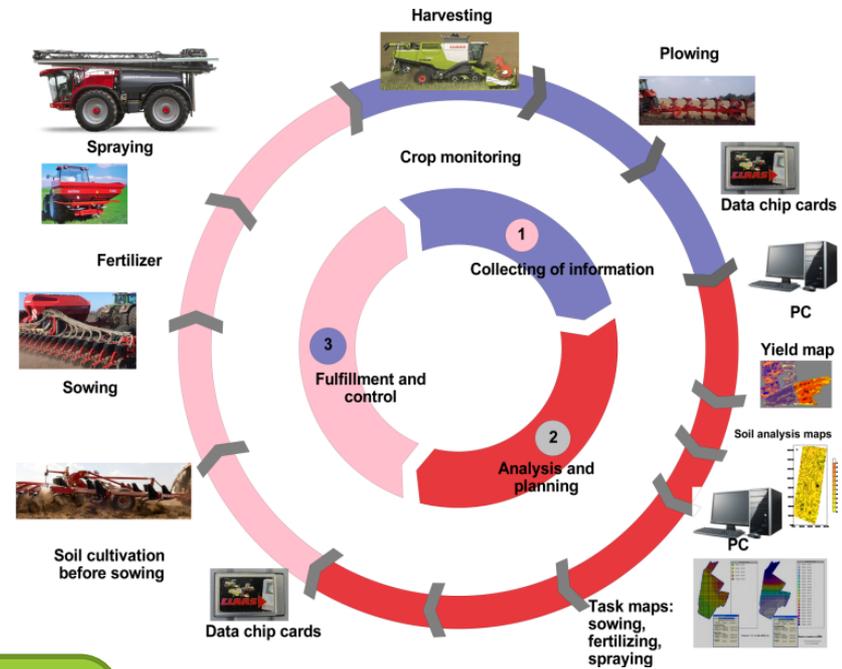

Purpose :

- Master's programme in Agricultural Engineering "Systems of precision agriculture";
- Scientific and practical seminars (short-term - 6...12 hours; middle-term – 36...72 hours).

Algorithm-scheme of the course on precision agriculture

Theoretical training class

Practical training class

Demonstration polygon

Indoor training ground

Practical training ground

Indoor training ground

Main tasks of the center:

- Professional training of bachelors of specialties "Agroengineering", "Agronomy" from educational modules:
 - Elements of precision agriculture
 - Geographic information systems
 - Information Technology
- Master's training in the educational-master's program "Precision Agriculture Systems"
- Professional trainings courses for farmers

Main prospects:

Development of Double degree master's educational programs "Unmanned systems for agricultural production" and "Agroengineering"

Vovk Oleksii
Sales manager at
Westrup APS

Tonkoshkur Tetiana
International office,
Hohenheim University,
Stuttgart

Galyna Bilchenko

Life and Environmental
Sciences of Ukraine

Factors of successful partnership

- ✓ Openness and trust among the partners
- ✓ Implementation of joint MBA course as the basis of partnership to ensure the sustainability of cooperation results
- ✓ Establishment of successful international partner network
- ✓ Professional and financial support of DAAD
- ✓ Great demand and reputation of alumni

Our prospects

- ✓ Creation of national Farm Management Data Network
- ✓ Expansion of national IMA course network
- ✓ Development of double degree programs in the fields of agricultural engineering, management and food processing and architecture

We can become your reliable partner!
