ERC Basics

Horizon Europe Programme Structure (2021-2027)

*Status: Trilogue, 10.12.2020

ERC in Horizon Europe/Work Programme 2021

- **Core message:** Stability and continuity
- Slightly revised panels for 2021/22 calls (published [here](#))
- Advanced Grant: interview as part of the evaluation
- **Changes** to call calendar:
 - Opening of first calls delayed
 - Eligibility periods for StG and CoG **not affected**
 - No Synergy Grant & possibly no Proof of Concept call in 2021
 - return to “usual” calendar by WP 2023

Please check for updates!

Principles of ERC Funding

- **Scientific excellence as sole criterion**
- Ground-breaking frontier research
- High risk – high gain
- Investigator-driven
- All research fields - “bottom-up”
- Portability of grants
- Funding regardless of nationality, age & gender
- Host Institution based in the EU/Associated Country
- No co-financing needed
- Scientific autonomy

Different Rules for
Medical Doctors

The date of the first PhD considered for the calculation of the eligibility period is the date of the actual award according to the national rules of the country where the degree was awarded.

Eligibility of Medical Doctors (MD)

- German “Dr med” is not considered as reference date, 3. Staatsexamen is
 - Eligibility period:
 - 4-9 years past MD/“3. Staatsexamen” for Starting Grants
 - 9-14 years past MD/“3. Staatsexamen” for Consolidator Grants
 - Principal Investigators who are MDs need to have:
 - Appointment that requires doctoral equivalency (postdoc fellowship, professorship, ...)
- OR
- Additional PhD

Extensions of the eligibility period

- Maternity before/after PhD: 18 months per child
- Extension by the documented time:
 - Maternity before/after PhD leave > 18 months
 - Paternity before/after PhD
 - Military/civil service after PhD
 - Long-term illness of the PI or a close family member (>90 days) after PhD
 - Clinical training after the award of the first eligible degree (up to 4 years)

Peer Review Evaluation Procedure – Panels

Handled by 27 panels
divided into 3 scientific
domains

- 11 Physical Sciences
and Engineering (PE)
panels
- 9 Life Sciences (LS)
panels
- 7 Social Sciences and
Humanities (SH)
panels

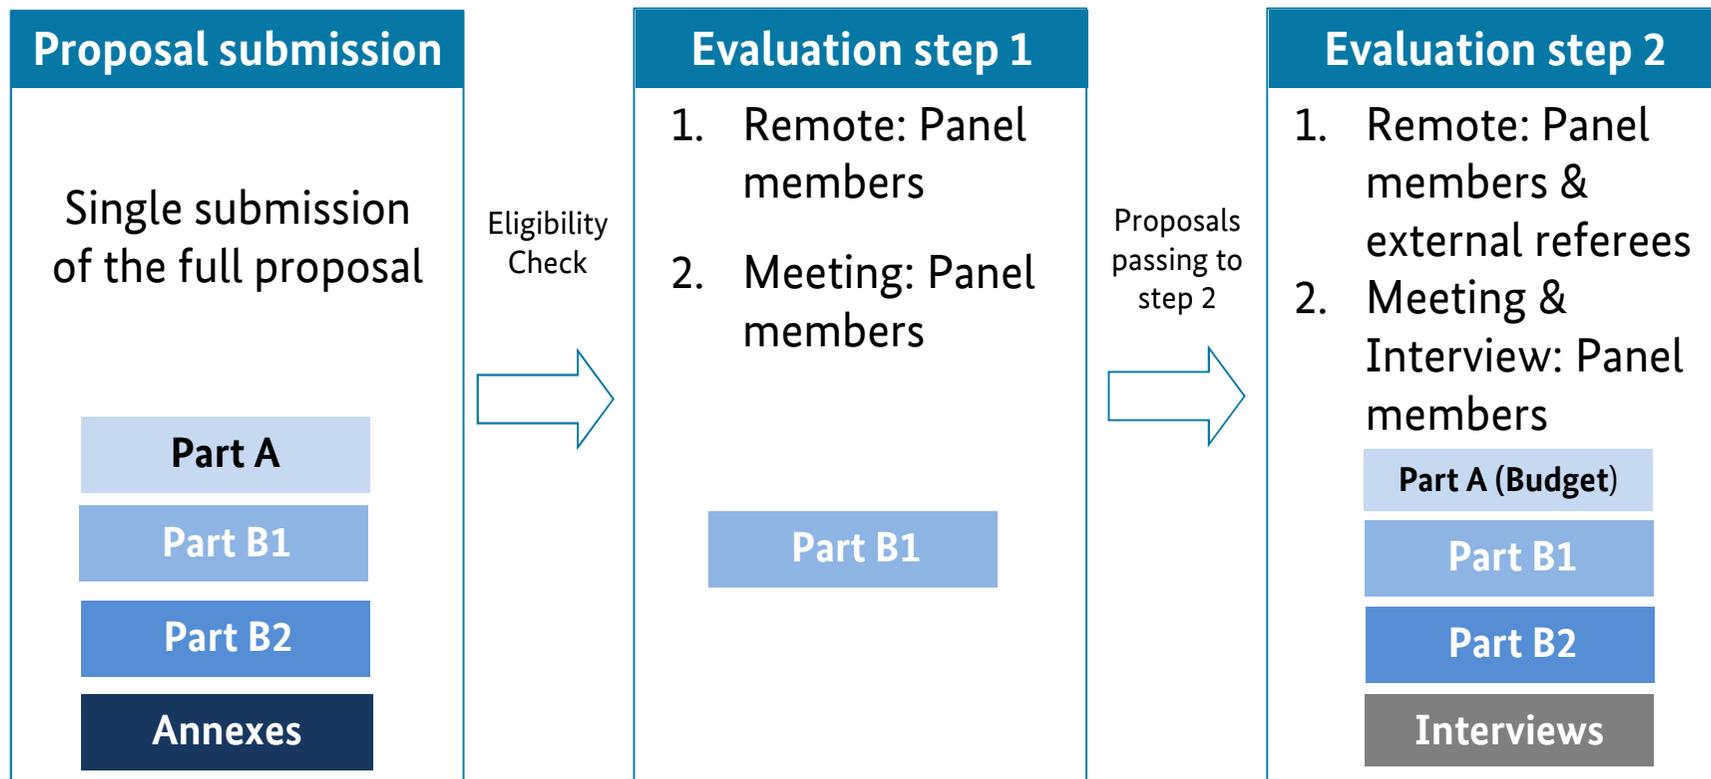

Panels consist of a
panel chair & 10-15
members

- Names of panel chairs
published on [ERC
website](#) before call
deadline, names of
panel members after
evaluation
- Panels alternate –
most 2019 panel
members are re-
invited for 2021

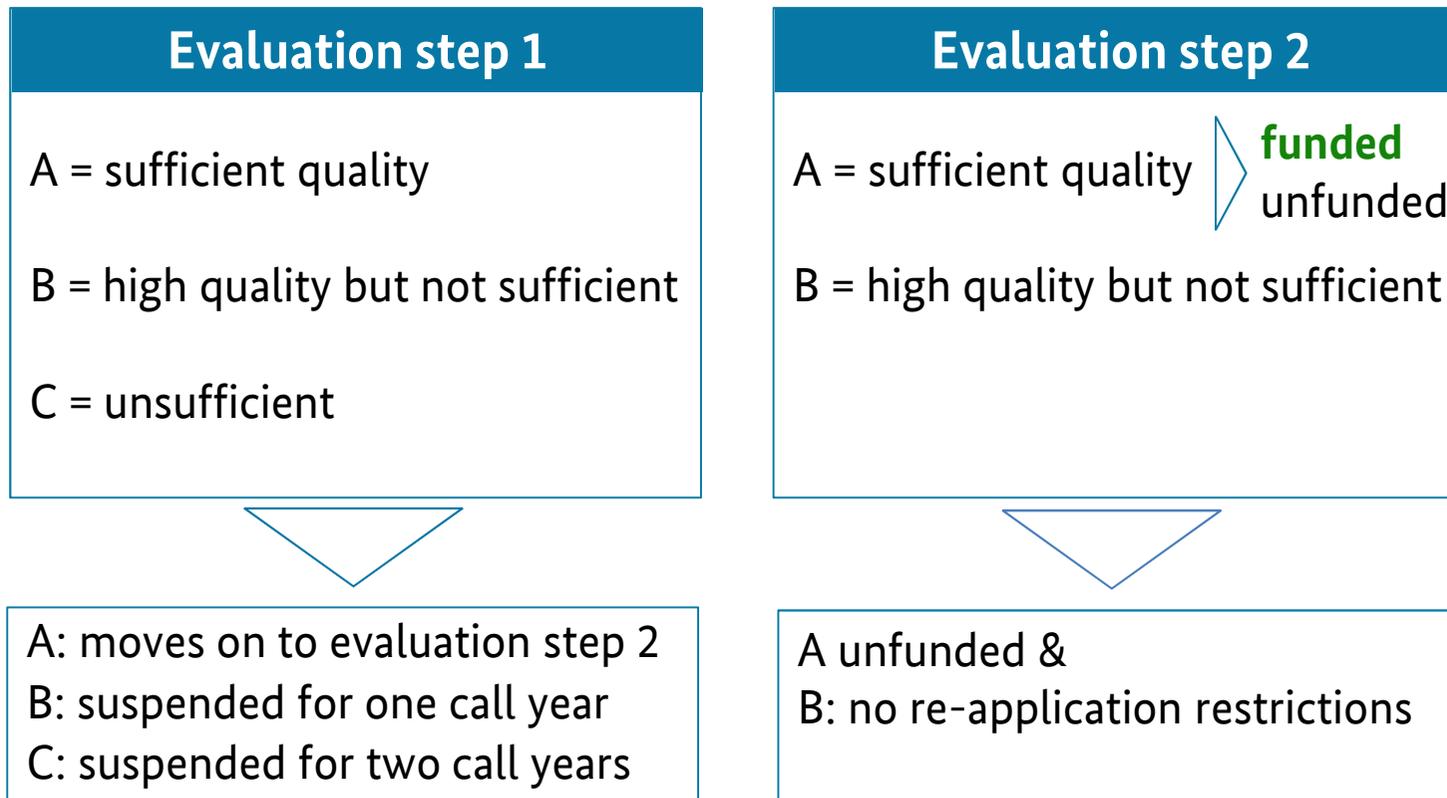

- Check [Panel
structure](#) for ERC
calls 2021 and 2022
including
descriptors
- Choose the panel
that fits best, choose
descriptors,
keywords & target
your proposal to
that audience

Success rate is
independent
from the panel!

General Hints

Some questions on your proposal

- Can you explain your project idea **briefly and concisely**?
 - Are the **goals** and the **novelty** clear from the beginning?
 - Which **important challenges** will you tackle?
 - Which are the **ground-breaking** or **novel** aspects?
 - What makes the project **high risk but feasible**?
 - What is the expected **impact** on your **research field**?
 - Why are you the **right person** to carry out the project?
- *Propose a project that comes from your heart & be excited about it*
- *Use the expertise of your EU office and the NCP ERC*

Readability

Panel members receive 20-40 proposals – make their live easier

- Easy to read and attractive
 - Understandable for non experts of your field
 - Leave no question & no evaluation criteria unanswered
 - Concise title, headings, sub-headings
 - Clear, comprehensible language, short sentences
 - Paragraphs, Bullet points, tables, graphics...
 - Time chart, roles of team members etc

Typical Reviewer Comments you do not want to read about your proposal*

*“solid **track record** ... however, was not considered as internationally competitive”*

*“The **novelty** of insights is not always clear ”*

*“serious doubts about the **independence** of the PI”*

*“**Confusingly** written proposal”*

*“I consider this proposal to be high risk, but I am not convinced that the **potential gains** are truly very high”*

“neither the lead question nor the approaches are clearly defined”

*“There is hardly any form of **work plan**”*

*“the principal investigator does not seem to have the **capacity** and is not prepared to execute the outlined project”*

*“**Feasibility** is hard to judge based on the information provided”*

*“rather **incremental** than groundbreaking”*

Examples taken from StG 2019

Typical Reviewer Comments you may want to read about your proposal*

*“The PI has an **excellent track** record of publishing in high impact journals and is first author on a significant number of these papers”*

*“**originality and importance** of the proposal”*

*“**Ground-breaking** project that if successful could have a huge **impact** in the field”*

*“highly **sophisticated** and **inventive** technology underlying this proposal”*

*“incredibly **ambitious** proposal”*

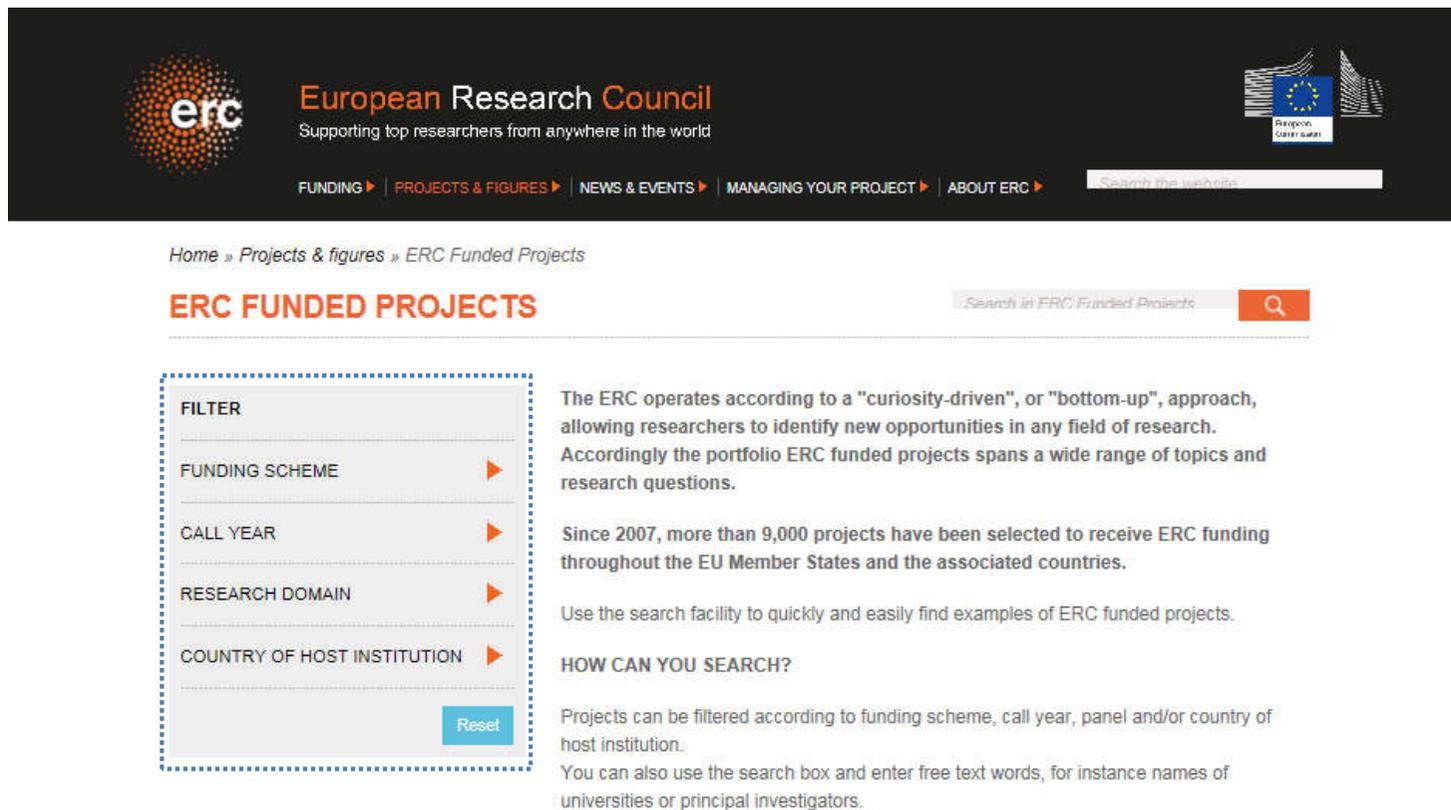

*“scientific approach is **feasible** but clearly **high risk/high gain**”*

*“The PI is an **eclectic, original thinker**”*

*“methods are on the **cutting edge** of work in this area”*

Reset

The ERC operates according to a "curiosity-driven", or "bottom-up", approach, allowing researchers to identify new opportunities in any field of research. Accordingly the portfolio ERC funded projects spans a wide range of topics and research questions.

Since 2007, more than 9,000 projects have been selected to receive ERC funding throughout the EU Member States and the associated countries.

Use the search facility to quickly and easily find examples of ERC funded projects.

HOW CAN YOU SEARCH?

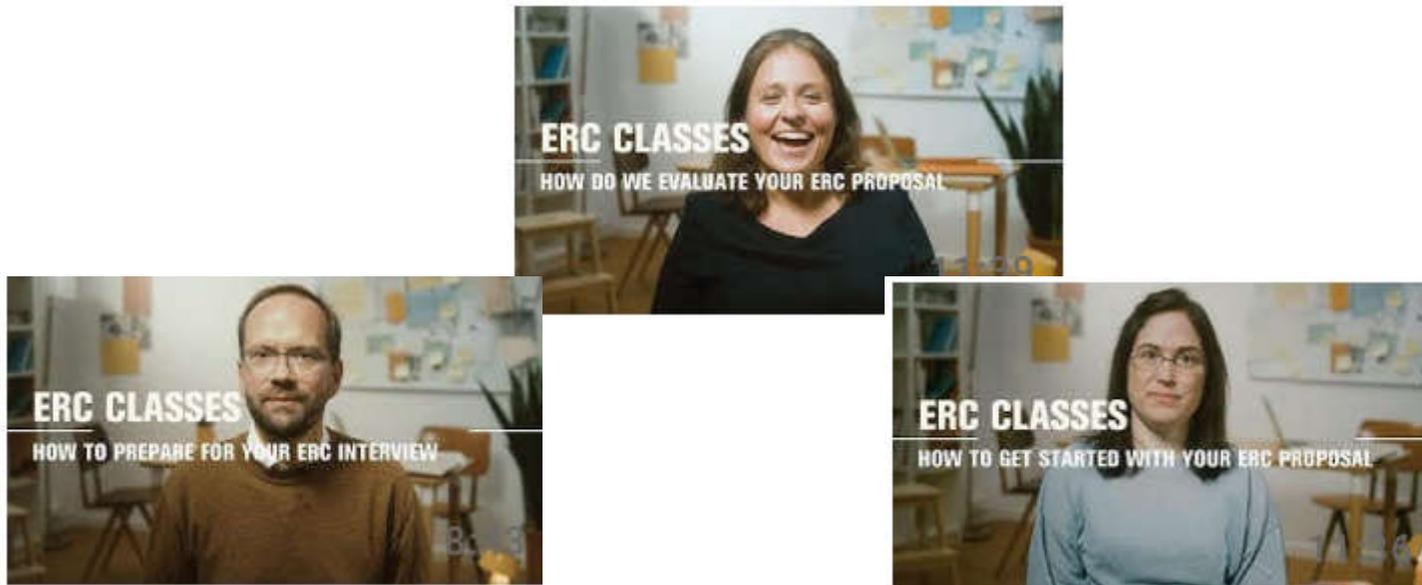

Projects can be filtered according to funding scheme, call year, panel and/or country of host institution.

You can also use the search box and enter free text words, for instance names of universities or principal investigators.
